All the World's a Stage!

Summer Theatre Workshop

July 21st-26th
 K-8th grade 8:30am-Noon
 High School 6pm-9pm

Join the Summer Fun!

Wheaton Drama offers a structured program in an actual theatre environment that includes acting technique, music, dance and technical classes.

This program is for all levels of experience, from children who love acting and want to develop skills to go to a higher level, to those with little experience who want to explore acting.

Each day your child will attend separate acting, music and dance classes taught by a staff of highly trained instructors specializing in these areas.

Using the "All the World's a Stage" theme, the children will work in small groups throughout the week to polish skits for a performance that will incorporate acting, music and dance. The highlight of the week will be your child's performance in our theatre on Saturday.

The workshops are a great value and each child receives some 15 hours of instruction, a stage performance, workshop t-shirt, new friends and many memories!
